

*Mission Aligned--Quality Driven*

**Critical Intelligence**

Federal Engineering Delivery (FEDelivery) provides comprehensive digital intelligence solutions. We collect and analyze data for the benefit of our clients and our country.

Our core competencies include:

**Electronic Warfare:** Federal Engineering Delivery’s solutions provides electromagnetic environment (EME) services to our clients. Our team manages electronic protection to ensure mission continuity. We also provide intelligence, surveillance, target acquisition, and reconnaissance (ISTAR) to provide continuous warfare support.

**Dark Web Exploration:** Federal Engineering Delivery provides dark web analysis to extract unique and tactical data to support our client’s missions. We leverage artificial intelligence to sort through dark web data for real time analysis.

**Intelligence & Forensic Extraction:** Federal Engineering Delivery supports logical and physical forensic extraction. Our services include signal intelligence, (SIGINT), geospatial intelligence (GEOINT), open-source intelligence (OSINT), and human intelligence (HUMINT).

**Communication Interception:** Federal Engineering Delivery’s services enable to identification and analysis of signal relay communications, such as radios, radar, and cell phones. We provide electronic, communications, and foreign instrumentation signal intelligence support to our clients through live monitoring, tactical surveillance, case analysis, and report generation.

**CLIENTS SUPPORTED**

**Geospatial Intelligence Analysis:** Federal Engineering Delivery is enabled to support Mission critical initiatives by providing top tier GEOINT Analysis for the intelligence community.

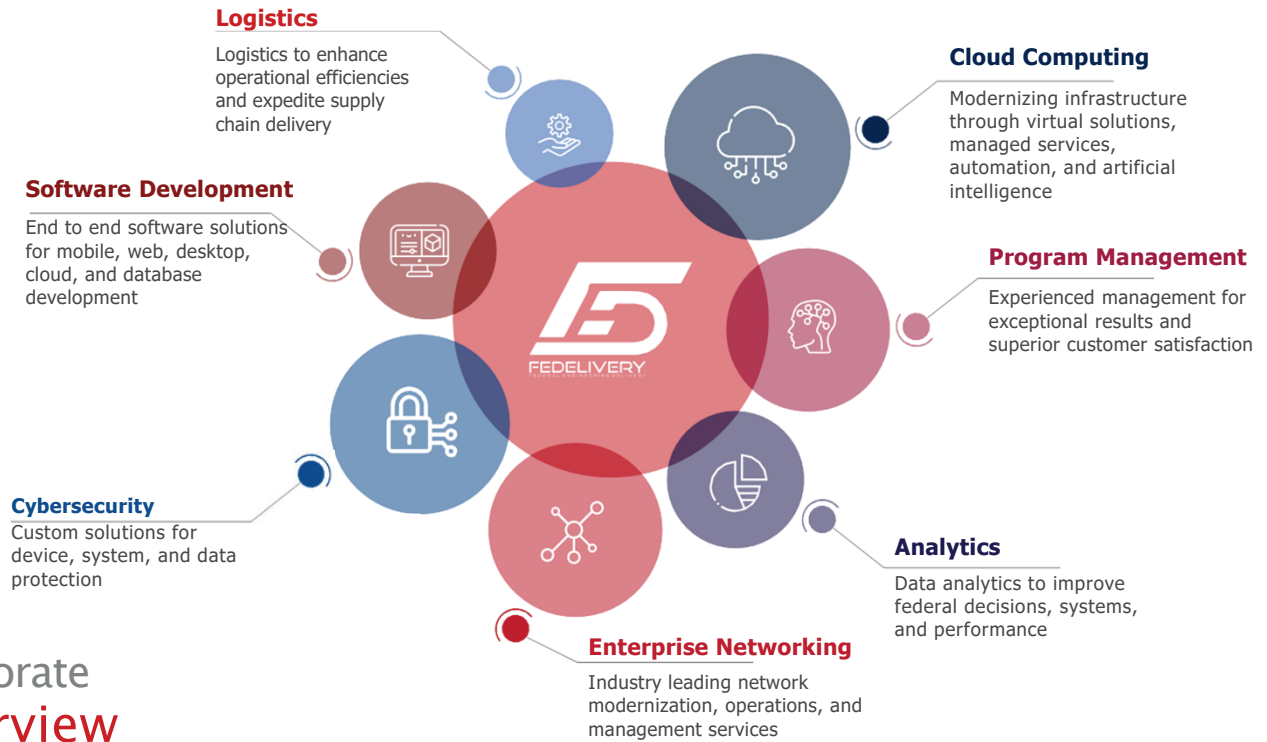

**Open-Source Intelligence:** Federal Engineering Delivery provides support of OSINT missions. Our team can manipulate and handling large quantities of data to summarize and draw actionable conclusions from.

**DevSecOps:** Federal Engineering Delivery stands ready to develop, migrate, or implement mission applications to the cloud. Our team of Engineers specialize in migrations and virtualizations to enable a higher degree of redundancy and security.

**Full Motion Video:** Federal Engineering Delivery services provide analysis and real-time monitoring support of FMV systems. Our team is enabled to support an array of missions from surveillance, asset tracking, and counterintelligence.

# Service Offerings

Federal Delivery Engineering provides comprehensive enterprise management, operations, and modernization services for the most critical initiatives.

## Corporate Overview

Federal Delivery Engineering is a **Historically Underutilized Business Zone (HUBZone)**, **ISO 9001**, **ISO 271001**, and **ISO 31000** certified company.

### NAICS, DUNS, CAGE

- 541330 – Engineering Services
- 541512 – Computer Systems
- 541511 – Computer Programming
- 541611 – General Management
- 541614 – Logistics Process
- DUNS - 080045874
- CAGE – 7H8S7

### Maturity

- ISO 9001, 27001, 31000 certified
- DCAA accounting
- Innovative recruiting & retention
- Competitive employee benefits

### Background

- HUBZone Certified
- Established in 2015
- Average of 121% annual growth

### Personnel

- 100% advanced certifications
- 100% cleared
- Emerging Technology SMEs with an average of 15+ yrs. experience

### Experience

- Customers include Department of Defense, Patent and Trademark Office, Joint Services Provider to the Pentagon
